REASONS FOR ALLOWANCE

1. The following is an examiner's statement of reasons for allowance:

Claims 1-20 have been found to be allowable over the prior art of record.

The independent claims recite a process of exposing a resist layer using immersion lithography with a developer as the immersion fluid. It is recited that the resist is not further contacted with a developer after the exposure.

The prior art does not teach a process of immersion lithography whereby a developer is used as the immersion fluid or the resist is not exposed to a developer after the exposure. Hoffnagle et al. teach a process of immersion lithography whereby alkanes are used as an immersion fluid. It is taught that the immersion fluid is chemically neutral (see "Apparatus" section).

Takanashi teaches an immersion lithography apparatus. The immersion fluid is taught to not be reactive with the lens, photoresist or substrate.

Examples taught include trichloroethane, chlorobenzene and water (see column 3, lines 1-10).

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

2. Any inquiry concerning this communication should be directed to Examiner K. Duda at (571) 272-1383. Official FAX communications should be sent to (571) 273-8300.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Mark Huff, can be reached at 571-272-1385.
